Your Health. Your Data. No Middlemen.

LOCK™
by Lumera

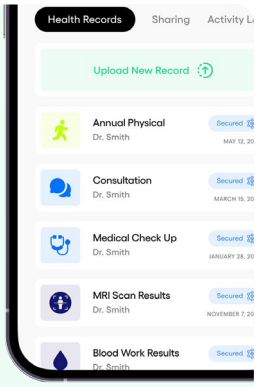

The First **Blockchain Secure** Personal Health Record App.

Lock™ is your all-access pass to total health data control. It's not just another PHR. It's your vault, your global pass, and your AI-powered assistant — all in one.

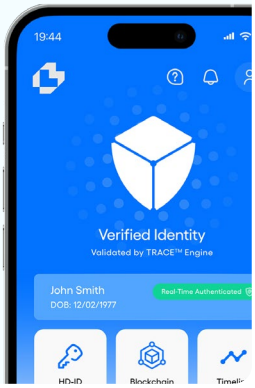

Own your entire health history

ERs, clinics, telehealth, even airport customs.

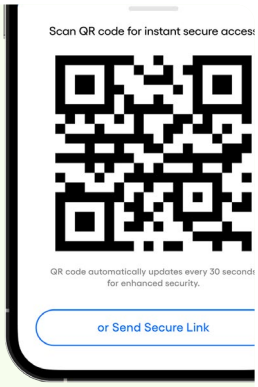

Every share, logged and sealed

by our Trace Engine™ (because receipts matter).

Share it in seconds

ERs, clinics, telehealth, even airport customs.

Built-in AI agent
Turns records into insights, flags risks early, and delivers guidance.

Verified ID
TRACE™ ID is instant, fraud-proof, and blockchain-secured.

Real Users Only
Every user is ID-verified for safer, cleaner data sharing.

Connect Anything
Import from HL7, FHIR, Apple Health, PDFs, lab results, or your clinic.

Insights With Incentives
Earn $LUR tokens for hitting your goals or participating in research.

Built to Travel
Supports multiple languages and sharing without privacy trade-offs.

Your Health, Visualized
See your entire medical journey on a clean, interactive timeline.

Privacy-First by Design
We meet (and exceed) HIPAA, GDPR, and ISO standards.

Decentralization
Your data lives on secure, zero-trust, decentralized infrastructure.

LUMERA

Why **LOCK**™ is unlike any other Health App.

- ✓ Not just HIPAA-compliant — HIPAA-defiant.
- ✓ Not just Web3-compatible — Web3-native.
- ✓ Not a tracker. Not a portal. A personal health OS.
- ✓ **Designed to work** — not just look good.

GET IT ON Google Play | Available on the App Store | USE ON Web App
